Water Commissioner Brgoch reported the Huerfano River flows are at 15 cfs and the call is #13. Cucharas River flow is six feet at the upper reach, and the call is #3. He said this is the first September he can remember when this area hasn't had any measurable precipitation. Brgoch explained his recollection about the HCWCD Advisory Board, which included representatives of local farms, ranches, municipalities. Their expertise may be needed, useful and valued by the board; they would not vote.

Brgoch reported the channel protection work on Middle Creek started today. Frontier Environmental will do the work for just over \$134,000. Town of La Veta will bill HCWCD for up to \$4,500 to cover the match needed, as agreed at the August meeting.

Infrastructure improvements project: The final planned weir/gage will be installed on Herman Wooten's land on the lower Huerfano by Chaparral Construction in October. Brgoch will send permission documents again for the final monitoring well at Cucharas #5 reservoir, this time to a legal firm in Denver, which is now the Two Rivers W&F contact. The plan is to finish the well and gage by 12/31/19.

A strategic plan workshop was scheduled for Friday February 21, 2020 from 10-4, lunch included. Suggested attendees included Bill Tyner, his staff, Mark Perry, and others. White will develop a list.

Change order #3, extending the schedule on SMAF to October 29, was approved on a White/Mace **motion**.

The 2019 amended bylaws were adopted on a White/Brown **motion**.

King administered the oath of office to renew the board member terms for White and Brown.
